VIRON NAVARRO

Full Stack Web Developer

About Me

I'm a passionate Full Stack Web Developer with expertise in both front-end and back-end technologies. I thrive on solving problems and creating impactful web applications that drive organizational success. Skilled in JavaScript, React, Node.js, and more, I'm committed to continuous learning and aspiring to become a leading web developer in my country.

Experience

National Center for Mental Health
2023 - Present

Full Stack Web Developer
- Work on building and improving backend systems with PHP and the Laravel framework, handling business logic, databases, and server-side processes.
- Developed and maintain the website's front-end using Blade, React, and TypeScript to create a smooth user experience.
- Collaborate with Project Managers and UI/UX Designer to make sure the project requirements were met and designs were turned into functional, responsive web pages.
- Communicate with stakeholders to gather requirements, share technical insights, and provide updates on system development and operational issues.
- Integrate different systems by developing APIs for seamless data exchange and enhanced functionality. I troubleshot and fixed system issues to ensure everything ran smoothly.

Projects
- Curemed - Pharmacy Information System
- MMS Information System (Inventory System)
- NCMH Integrated System of Allied Services (Hospital Information System)

Sammy Snake Ltd Internship (Remote)
Monmouthshire, United Kingdom, NP25 5JA
